

Instructions for the Preparation of Posters

International Symposium on Biopolymers – ISBP 2010

October 3-7, 2010 in Stuttgart/Germany

General Information

The posters will be presented and numbered according to the poster programme. Each poster will be in the size of **0.85 m width** and **12 m height (DIN A 0)**. The **poster number** is mounted on top of the board.

The **author's name and address** and the **title of the paper** are to be indicated on the top section of the poster.

Material for attaching the posters will be supplied by the organisers.

Writing or painting on the poster board is not allowed.

The posters should be mounted on Monday morning, October 4, 2010 and should be presented until the end of the conference.

The opportunities to present the posters are during the poster session and during the breaks. The authors are expected to be present at their poster during the poster session.

Preparation of the Poster:

As a major guideline it is proposed to make the poster intelligible in itself, even in the absence of the author. It is suggested to divide the contents of each poster into **introduction, results** and **conclusions**, with a summary listing the pertinent results and conclusions.

The poster should be legible from a distance of 2-3 meters.

Therefore, the **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/adresses of the authors in the heading label;
- 1.5 cm for sections headings such as introduction, results, labeling of figures and tables;
- 0.8 cm characters in height for further text.

Line spacing: 1,1 cm at minimum; 10 of such lines correspond to one figure.

Please use colours, symbols and schemes for improved clarity.

Instructions for Poster-Authors

The standard size for all posters is 0.85 x 1.2 m (DIN A 0-German Standard) vertically orientated as shown below
